

VIKRAM BHANWALA

Senior Backend / Full Stack Developer (Node.js | PHP)

Gurugram, India | vikrambhanwala1@gmail.com | 8685011980 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Backend-focused Full Stack Developer with 5+ years of experience building scalable APIs, microservices, and high-performance web platforms using Node.js, PHP, and modern MVC architectures. Specialized in designing RESTful services, integrating payment systems, and building scalable eCommerce and CMS platforms. Strong experience with AWS cloud infrastructure, database optimization (MySQL, MongoDB), and performance tuning using Redis and caching strategies. Proven ability to own backend architecture, build reliable APIs, and deliver production-ready systems used by high-traffic applications.

CORE TECHNICAL SKILLS

- Backend Development: Node.js, PHP, Express.js
- API Development: REST APIs, Microservices Architecture, API Security
- Frontend Integration: JavaScript, AJAX, Next.js
- Databases: MySQL, MongoDB, AWS RDS
- Cloud & Infrastructure: AWS EC2, Linux Servers, cPanel, Plesk
- CMS & Platforms: WordPress, WooCommerce, Shopify
- Performance Optimization: Redis, Query Optimization, Caching
- Tools & Practices: Git, GitHub, GitLab, MVC Architecture, Agile Development

PROFESSIONAL EXPERIENCE

Brand Bee — Full Stack Developer | Sep 2022 – Present

- Designed and developed scalable backend services using Node.js, PHP, and Express.
- Built RESTful APIs using MVC and microservice architecture.
- Developed custom CMS platforms and WordPress extensions for client platforms.
- Integrated payment gateways including Razorpay, Stripe, and PhonePe.
- Managed AWS EC2 infrastructure and AWS RDS databases.
- Improved system performance using Redis caching and database query optimization.

Weaddo — Backend Developer | Jan 2022 – Sep 2022

- Developed backend services for React and Next.js applications.
- Built PHP MVC applications and REST API integrations.
- Consolidated multiple data sources into unified backend services.
- Maintained application performance and database reliability.

Healthians — PHP Developer | Aug 2021 – Jan 2022

- Developed REST APIs for internal services and third-party integrations.
- Built CMS modules using PHP MVC frameworks.
- Improved backend stability and system performance.

Pontem Integrated Pvt Ltd — WordPress & PHP Developer | Aug 2020 – Aug 2021

- Developed custom WordPress themes and plugins.
- Built dynamic web applications using Core PHP and MySQL.
- Integrated third-party APIs and managed application deployments.

SELECTED BACKEND PROJECT HIGHLIGHTS

- Designed scalable payment integration systems using Razorpay and Stripe for eCommerce platforms.
- Built custom CMS platforms for managing dynamic website content and business workflows.
- Developed REST API systems consumed by React and Next.js frontend applications.
- Implemented caching layers using Redis to improve application performance and response time.

EDUCATION

M.Sc. Computer Science — Maharishi Dayanand University | 2018 – 2020

ADDITIONAL STRENGTHS

- Strong problem-solving and debugging skills
- Experience working in agile and collaborative engineering teams
- Clean code architecture and maintainable backend design
- End-to-end development ownership from architecture to deployment
